WESTON NURSERIES

1933 & 1934
WESTON, MASSACHUSETTS

How to Reach Our Nurseries

THE WESTON NURSERIES are located in the southern part of the Town of Weston, 13 miles from Boston, on Route 23. Coming out from Boston follow Commonwealth Avenue, Route 23 begins about one mile after crossing Charles River Bridge at Norumbega Park. (This Spring, Routes 20A and 23 will be abandoned and Route 30 will take their place.) Following this route towards Cohituate and just before crossing Wellesley Street, our new office, greenhouse and sales grounds are located on your right.

Our main nursery of 50 acres is located on Winter Street, which is the first public road on your left after crossing Wellesley Street, and it turns off the main road directly in front of the pine growth.

Visitors are always welcomed to both places and questions concerning garden problems gladly answered.

Conditions of Sale

IT is to our own interest to see that only good and correctly labeled plants leave the Nursery, but we give no guaranty, expressed or implied, as to description, growth and success of any stock we sell, for it depends on correct planting, proper soil, weather conditions, and the general care of the plants.

We accept all orders upon condition that they shall be void should injury befall stock from frost, fire, hailstorm or other causes over which we have no control.

Any errors made by us will be gladly rectified if notice is given within 10 days after receiving the stock. If any plants are found to be misnamed, we will replace them the next planting season.

We sell 5 plants of the same variety at the rate of 10; 25 plants at the rate of 100.

All parcel post, express or freight charges are paid by the purchaser.

A certificate of state inspection for freedom from injurious insects or diseases on our plants will go with every order.
